Opioid Prevention Holiday Campaign – Week 3

Mid-December Focus

Know the Signs

Naloxone Awareness and Overdose Response

HOLD OUT THE LIFELINE:
A MISSION TO FAMILIES
(HOTL)

- ☑ Learn the signs of an opioid overdose:
  - Unresponsiveness
  - Slow or no breathing
  - Blue lips or fingernails
- ☑ Keep naloxone (Narcan®) available at home, church, and in the community.
- ☑ Call 911 immediately if you suspect an overdose.
- ☑ Stay with the person and give naloxone if available.

Be Prepared to Save a Life.

"Each One Can Reach One."®
